WORK RELATED EXPERIENCE

Child Counselor at a school Summer Day Camp

Assisted with the daily summer activities for 4 to 13 year olds

40 hours a week for the entire summer

Gained invaluable intrapersonal skills

Created a simple quiz application

First coding project I had undertaken

Coded using Swift and Xcode

Determined the likelihood that individuals would have issues with social media

Created a personal website portfolio

Coded using HTML Java and CSS

I was the only contributor to this project

Created a Checkerboard game

    Coded using Python

    Initially started off as a team project

    The team disbanded and I created the project on my own

    Learned the basics of Github through this project

Developing a Statistic Analysis Script

    Coded using Matlab

    An end of the year class project

    Takes 2 columns as input and outputs general statistics in an output file

Coded various ideas in an Engineering Class (Engr 112)

    Created various projects using Matlab

    First official introduction to Object Oriented Programming

    Learned Teamwork and Personal skills necessary in the workplace

COMMUNITY SERVICE

Worked on a Puppet Team for a children's retreat
